

Ongoing guidance and counsel are crucial to the success of implementing innovative concepts and designs. As legendary football coach Vince Lombardi said, execution wins it. So TeamMunro helps its clients become winners by coaching them in the actual execution of these new ideas, approaches and technologies, as well as their creation.

While TeamMunro is the nation's leading consulting firm specializing in the implementation of concurrent engineering and Design for Assembly/Design for Manufacturability (DFA/DFM) principles, its offerings cover a wide range of results-oriented consulting services — all aimed at converting creative ideas into real-world **profitability**.

Among the many services TeamMunro offers are:

- ▶ Strategic product planning assistance for executives
- ▶ Executive and engineering management paradigm presentations
- ▶ Long-term implementation assistance for DFA/DFM principles
- ▶ Hands-on DFA/DFM workshops and training
- ▶ Early identification of Design for Serviceability/Recycling potential
- ▶ Design for Reliability services
- ▶ Value-analysis/Value-engineering evaluation
- ▶ Ergonomics analysis and consulting
- ▶ Competitive benchmarking and Pugh analysis
- ▶ Manufacturing methods and plant layout evaluation
- ▶ Production line balancing consulting
- ▶ Product design and re-design services
- ▶ On-going support for corporate DFA/DFM programs
